Our next garden tour will meet at the home of Bill and Ginny Hart on the shore of Lake Ontario. The Harts are astute and very knowledgeable horticulturists. They have plenty of rare plants, all in a well manicured and designed garden. Dennis Burns has been working with them for years developing and maintaining their garden.

Join us for a delightful evening among good friends and fantastic plants.

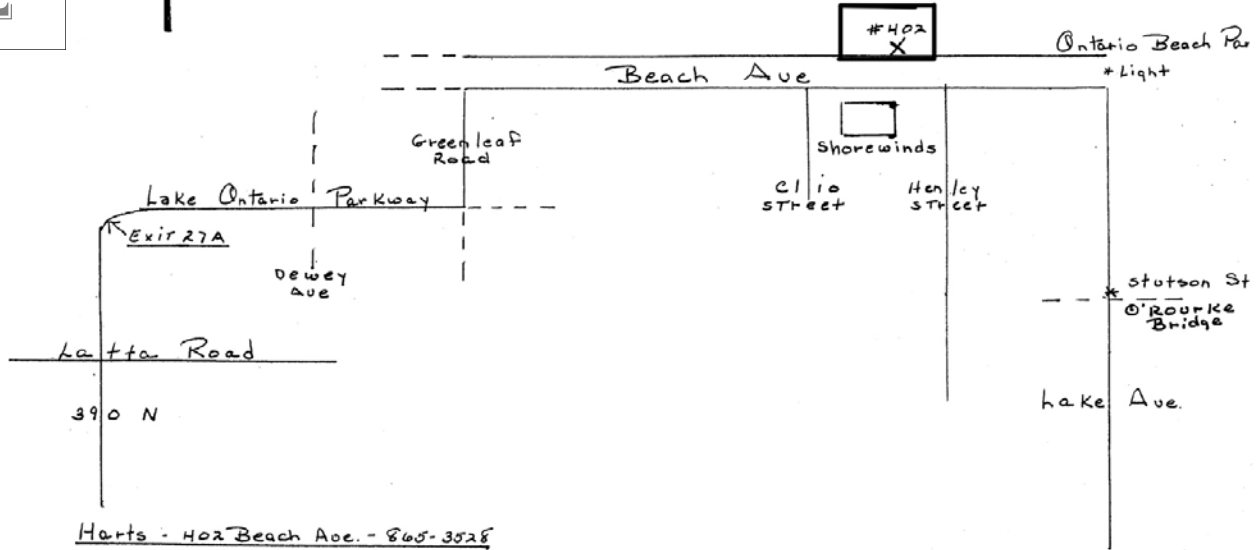

JULY HIGHLIGHTS

In spite of the light rain, we had a very good turnout to visit Al Sieg's Japanese garden. There were several different areas, all well maintained and designed. Al lead us through his gardens explaining how he developed his Japanese garden. It was amazing to see what can be done in a small area near a woods. Thanks Al!
